

5-1 Heat Insulation for Battery Cell

Overview

Suppresses heat chain to adjacent cells

Product

Features

- ① Thin High-Heat Insulation
- ② Electrical Insulation non-flammable High-Heat Resistance
- ③ Double-Structure

Coating Layer

Package

For narrow spaces between cells

5-2 Heat Insulation for Battery Cell

Top

Characteristics

【Our Technology】
Distributed processing technology that disperses high-heat insulating filler in liquid
⇒ Can be made into 'thin insulation film'
